THANKS FUND DONORS

Senator Wadsworth Gets Grateful Note From Soldier in Germany.

"I received tobacco from THE SUN obacco Fund 'beaucoup' times," said ergeant Speed Smith, who made a call terday when he was in New York on the from Camp Mills. He was with Medical Corps Detachment of the

This final distribution was composed of smoking and cigarettes and we had our choice which to take. I judged that the smoking would last longer than the tailor made and chose it. The result proved that I was wise, for I had to lend a lot of the boys who had loaded up on cigs before we saw the Statue of Liberty.

"We feel fine and hope to be starting South in a few days, but we won't forget all that THE SUN Tobacco Fund did

for us wherever we are or whatever happens to us."

The Lady Rose Society is giving, Saturday at 8:30 P. M., a welcome home reception and dance in Wallace Hall, 448 West 152d street, between Amsterdam and St. Nicholas avenues. There is to be a betterned at the contract of the contract to be a hot supper and after it plenty of "mnokes," for the donation of which THE SUN Tobacco Fund was able to assist the president, Mrs. B. Schwarz. If the rhymed injunction on the invitation card is carried out the home returned boys are in for a good time. It saws in boys are in for a good time. It says in

So fill your cup and fling a heal.
On with the dance, no clash of steel
Can dim the cheer, nor mar the peace
In which you now your deeds release.
Eat, drink and revel, mothers sons.
Then stop and think how with your guns
You saved democracy!

Senator Wadsworth, Jr., will receive this card from Sergeant Archie Ames, who wrote and posted it May 13 at Filens, Germany:

"Your contribution of fine cigarettes was received yesterday and easily took the precedence of any happening lately. They were highly appreciated by all who smoked them, and I desire to express for all the men, including mysek, our most sincere thanks."

Sergeant Ames is with Company F. Fifty-first Infantry, and his postal address is A. P. O. 777.

The following letter dated May 21 from Commercy (Meuse), France, was addressed to a doner by First Class Private John D. Chequer of Headquarters Supply Company, Forty-fourth Telestraph Battallon. It will be interesting to many of the contributors on account of the fullness with which the writer tells of what tobacco means to the soldier:

We gave up our homes and comforts to come and fight in the just cause that has been behind this war, but The Sun and its contributors that could not do the same nevertheless did their part to win the war.

"I have heard many people criticise "I have heard many people criticise the use of tobacco in any form, but I daresay had these persons been in France where a fellow often becomes downhearted, longing to see his loved ones at home, they would soon have learned that there is nothing that can dispel the blues like a digarette or a pipeful of tobacco.

We are all thankful to The Sun for what it has done, but we want the contributors to have our thanks direct. It would have been easy for you, no matter how kindly you felt toward the soldiers or how much you wanted them to be supplied with smokes, to have said: 'Let the other fellow do it,' but no, you, with most likely a sweetheart of your own or a brother in the service, took it upon yourself to bestow SUN shine on one of Uncle Sam's Yanka."

casualties have been made public by the Medical Corps Detachment of the Medical Corps Detachment of the Medical Corps Detachment of the Mar Department:

Character of casualties is ifdicated to the Sergeant Charles Holcomb, who was with the Headquarters Detachment of the same supply train and whose home town is Alta, Tex., came in with Sergeant Smith and helped him out with suggestions when he started to tell of some of the numerous occasions when this smoke fund had helped to raise the spirits of the fighting men.

"It happened so often, our getting tobacco from The Sun, that the boys began to depend on it like rations. If there was any long delay between distributions they began to grumble as if they had a right to expect their smokes. Of course this was only in fun, for everybody appreciated the goodness of the people who were contributing so much to our comfort and we all knew we weren't entitled to it.

"I can't tell you how the boys felt toward this fund and its donors because I have not got the words. They were and are extremely grateful. You can add anything you want to that and then wome and you won't be exaggerating their gratitude.

"The last time we had tobacco from The Sun we were at Ervy (Aube) and we were ordered home and everybody was excited about the prospect of soon getting back to God's country. But all the same the good old 'tabac' made its usual hit.

POTASH LICENSING SYSTEM IS URGED

This System of Import Con-trol Likely to Win.

WASHINGTON, June 10 .- Protection of

with the case, as often happens in the country. Sixteen talesmen, summoned overnight from points in Nassau country not readily accessible to the court house, did not appear at all.

A panel of sixty more men has been summoned for this morning and it is hoped that from among them and the sixteen who failed to appear yesterday life jury box will be filled by night.

Dr. Wilkins, the eiderly defendant, who is accused of killing his wife at their cottage at Long Beach on February 27, was the most placid figure in the court room yesterday, as he was on the opening day of his trial. While pro-

"Then there has been no payment for this food we sent to Germany?" saked Representative Longworth (Ohio). "Not in potash," replied Mr. Parker, Mr. Parker declared that \$50,000,000 had been invested in the potash industry to help win the war, and that with-out protection this investment would be largely sacrificed before the industry could attain self-supporting proportions. He declared in answer to a question by Chairman Fordney (Mich.) that the in-

dustry had no particular preference be-tween tariff protection and a licensing system, but said that quick action was system, but said that quick action was necessary.

Director George Otis Smith of the United States Geological Survey urged the licensing system on the ground that the potash industry at this time produces only about 50 per cent, of the country's requirements. The remaining 50 per cent, would have to be obtained from foreign producers in any event, he said, and a prohibitive tariff might only increase the cent to the consumer.
